If you're looking for a cost-effective creative source based in Wales, then Moo could just be the perfect fit for you. With over 30 years in the creative industry, Moo has been a vital part of many successful advertising and marketing campaigns. Although originally from Derbyshire, I'm now based in Gwynedd, North Wales and regularly work on Welsh/Anglo language projects, particularly with the Woodland Trust as a freelance designer and copywriter. Please take a little time to look at some of my more recent projects in this portfolio and also the Moo website moo.me.uk for a further insight into my creative capabilities. If you like what you see, then why not contact me to discuss how Moo can help you boost your creative output.

Cefn Ila covers a vast site and also borders several other woods of interest. So a colourful bi-lingual leaflet was designed to slip into the walkers' pocket, but have the capability to be unfolded to reveal maps, photographs and lots of informative text, useful on their journey of discovery.
